

## Evidence Explained

ESSA emphasizes “evidence-based” approaches that have demonstrated statistically significant positive effects on student outcomes. ESSA identifies four levels of evidence: Level 1 Strong, Level 2 Moderate, Level 3 Promising, and Level 4 Evidence that demonstrates a rationale. The levels are defined by the research study design.

*Experience Science* K-5 meets ESSA’s Level 4 evidence criteria.

Demonstrates a Rationale Evidence Criteria	Alignment to Requirements	Detail
A well-defined logic model or study that indicates how a program is likely to improve student outcomes.	<b>Meets</b>	Find the <i>Experience Science</i> K-5 Logic Model <a href="#">here</a> .
A study is currently underway that meets the Level 3 Evidence or higher.	<b>Meets</b>	A Quasi-Experimental Design study is currently being conducted on <i>Experience Science</i> K-5.

## Experience Science™

*Experience Science*™ brings grades K-5 science concepts to life, creating dynamic, motivating, and interactive experiences for today’s classroom. This hands-on curriculum supports three-dimensional learning and is flexible enough to fit into any classroom situation. Through a variety of print and digital resources, all students are engaged in active learning. On-level students, those with disabilities, English Learners, and gifted and talented students have fun learning to recognize and connect with science in their everyday lives.
