SIOP® Training for Teachers (T4T) Virtual Course

Description

In this virtual course, educators gain an in-depth understanding of the Components of the SIOP® Model and techniques to implement the Model in their classrooms. Using the best-selling research-based book *Making Content Comprehensible for Multilingual Learners: The SIOP® Model*, 6th ed. participants gain practical skills to collaborate, share, and implement lesson plans that incorporate all eight Components and thirty Features of SIOP® to teach content while developing students' academic and social language. In addition to the SIOP® Model text, participants have digital access to the course workbook to support their implementation of the SIOP® Model in their lessons.

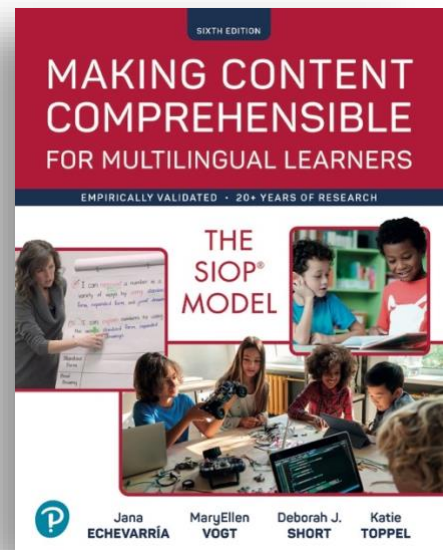

Virtual Course Outcomes

By the end of the workshop, participants will be able to:

- Explain several factors that affect second language acquisition
- Identify the Components and Features of the SIOP® Model
- Observe and practice using each of the eight SIOP® Components
- Incorporate the SIOP® Model into lesson planning
- Build a lesson using the SIOP® Model instructional framework.

Included Course Materials

- SIOP® Training for Teachers Virtual Course Access
- *Making Content Comprehensible for Multilingual Learners: The SIOP® Model*, 6th edition by Jana Echevarría, MaryEllen Vogt, Deborah J. Short, and Katie Toppel (Hard Copy and eTextbook Access)
- Digital Participant Workbook (PDF)
