

Subject Line: A new kind of dual enrollment is coming to our school

Body copy:

I'm excited to announce a new academic opportunity for you: Outlier Dual Enrollment courses. In these 100% online college courses, you can fulfill a course credit you need to graduate and earn actual college credit from the University of Pittsburgh (a top 50 school!) at the same time. [Take a peek at this trailer](#) for the Intro to Financial Accounting course.

Outlier is unlike any course you've seen before:

- Cinematic lectures with top-rated instructors from universities like Harvard and MIT
- Dedicated support
- Interactive learning tools built by game designers (yes, learning is fun!)
- Up to 5 attempts per quiz to maximize your grades

Why consider enrolling in an Outlier course? Because there's no better way to prepare for college! By earning transferable college credits in high school, you can save time and money on your degree while also building your skills and confidence to succeed in college.

This is an amazing opportunity to challenge yourself and get ready for college. Take a sneak peek at an Outlier Dual Enrollment course at [Outlier.org](#). Talk to your counselor to become an Outlier.
