

Evidence Explained

ESSA emphasizes “evidence-based” approaches that have demonstrated statistically significant positive effects on student outcomes. ESSA identifies four levels of evidence: Level 1 Strong, Level 2 Moderate, Level 3 Promising, and Level 4 Evidence that demonstrates a rationale. The levels are defined by the research study design.

Savvas Career & Technical Education Courses meets ESSA’s Level 4 evidence criteria.

Demonstrates a Rationale Evidence Criteria	Alignment to requirements	Detail
A well-defined logic model or study that indicates how a program is likely to improve student outcomes.	Meets	Find the Career & Technical Education Courses Logic Model here .

Savvas Career and Technical Education programs prepare your middle and high school students for career success. This next generation of career and technical education aligns to industry-recognized certifications, so students graduate with the job-ready skills and credentials employers value most. Savvas’ diverse catalog of digital CTE curriculum is designed for virtual or in-person classrooms with blended learning. CTE courses are research-based, include interactive learning experiences and help students develop practical skills through real-world projects.
