The Magna Carta

Introduction

King John ruled England from 1199 to 1216. During his troubled reign, he found himself in conflict with England's feudal barons. The nobles especially resented John's attempts to tax them heavily. In 1215, the barons forced John to sign the Magna Carta, or Great Charter. Most of this document was intended to protect the rights of the barons. However, over time, the document came to guarantee some basic rights of English citizens. When English colonists came to North America, they brought these ideas with them. Eight of the 63 clauses of the Magna Carta are printed here.

12. No [tax] nor aid shall be imposed on our kingdom, unless by common counsel [consent] of our kingdom, except for ransoming our person, for making our eldest son a knight, and for once marrying our eldest daughter; and for these there shall not be levied more than a reasonable aid. . . .

30. No sheriff or bailiff [tax collector] of ours, or other person, shall take the horses or carts of any freeman for transport duty, against the will of the said freeman.

31. Neither we nor our bailiffs shall take, for our castles or for any other work of ours, wood which is not ours, against the will of the owner of that wood. . . .
