

## FOUNDATIONAL TRAINING

## ENHANCING PRACTICE

## ACHIEVING GOALS

## DEDICATED EXPERT COACH

### Launching Your Curriculum

#### Program Activation

Virtual instructor-led and self-paced courses provide educators with an introduction to the program, helping them prepare for day one. (In-person Program Activation is also available.)

#### Implementation Essentials

This follow-up workshop, offered once teachers start using their new program, deepens practices and helps educators get the most out of their print and digital resources..

#### Administrator Workshop

3-hour training for busy leaders to help them successfully launch their Savvas curriculum.

#### MySavvasTraining.com

24/7 online, program-specific training resources, videos, asynchronous courses, and tutorials include real-time assistance.

### Ongoing Support for Teachers

#### Program-Specific, Pedagogy-Rich Workshops and Courses

- Next Generation Science Standards
- Science & Engineering Practices
- Student Scientific Inquiry
- Problem-Based Learning
- Be a Trailblazer
- Making Curriculum Connections

#### Job-Embedded Services for Teachers

Savvas consultants provide focused feedback, modeling, co-planning, and reflection for day-to-day teaching practices. We use an Anchored Learning Cycle to structure job-embedded support and foster continuous improvement.

### Ongoing Support for Leaders

#### Job-Embedded Services for Leaders

Savvas consultants support school and district leaders as they implement their new Savvas curriculum. Services focus on enhancing student learning outcomes and related instructional practice while:

- Cultivating leadership skills
- Utilizing data and resources
- Supporting teacher growth

#### Focus Visits

Non-evaluative classroom visits help leaders identify trends in current student performance and related teacher practice in order to provide teachers with evidence-based feedback.

### Partnership Plus

A dedicated **Savvas Partnership+** Consultant helps schools take the necessary actions to enhance instructional practices and improve student outcomes.

- Builds a professional learning community around collective goals, practices, and teacher conversations
- Delivers program-specific workshops and job-embedded services for one full school year
- Facilitates non-evaluative Focus Visits to support team consistency and effectiveness
- Uses Anchored Learning Cycles to drive student learning outcomes and related instructional and leadership practices
- Fosters a community of learning for educators and parents/caregivers and community members
