History That Moves Students

US History Interactive and *World History Interactive* make history more experiential, more inclusive, and more relevant. It's history that moves students, gets them thinking and acting as responsible citizens. C3 inquiry, curated multimedia, and flexible teaching tools support classroom and distance learning.

Engage Students with Inquiry
Inquiry-based learning helps keep students engaged in content by having them ask questions, investigate, and develop explanations about the past. The curriculum is built on a four-part inquiry model that's consistent with the C3 Framework for Social Studies State Standards.

Engage Students with Connections to Today
Give students the opportunity to experience how the past bridges to the present. Analyze historical events, people, and places by tying them to complex issues of today, and show students how they can take constructive action to inform the future.

Interactive Content
Make learning personal, empowering, and self-directed. Involve students and improve understanding with curated multimedia, videos, music, and immersive digital experiences.

Civic Engagement
Students today are active and informed. Give students an introduction to government, voting, and how to become informed citizens.

Culturally Responsive Education & Social Emotional Learning
History is everyone's story. Teach the story of the past through the eyes of people who lived it – using diverse primary sources and support for integrating social-emotional learning skills.

Differentiation & Teacher Support
Meet the needs of all your students in class and at home. Point-of-use teaching tips and professional development help you make adjustments to daily practices.

ISSUE	FEATURE	WHAT IS IT? WHERE CAN I FIND IT?
Engage Students with Inquiry	Quest Inquiry	Each topic contains a Quest Inquiry project that follows the C3 four-part inquiry arc. There are 3 different assignments – project-based learning, civic discussions, and document-based questions. You can see an introduction to the project in the **Student Edition**, find supporting materials on the **Realize Digital Course**, and see instructional support in the **Teacher's Edition**.
	Essential Question	Challenge students with a compelling Essential Question for each topic and its accompanying digital activity. Find all Essential Questions in the **Student Edition** and a corresponding digital activity on the **Realize Digital Course**.
	Active Classroom Strategies	Create an active classroom with these high-impact, low-prep activities. Suggestions are available at point of use within the **Teacher's Edition**.
Engage Students with Connections to Today	Hook & Inspire: Connections to Today	Bridge the past and the present and bring modern content and pop culture into your classroom. Find a teaching suggestion in the opening topic in the **Student Edition**, and see more teaching suggestions on the **Realize Digital Course**.
	NBC Learn™ myStory Video	Make history personal with myStory videos, exclusively from NBC Learn, found in the **Realize Digital Course**.
Interactive Content	Magazine-Style Student Edition	Help students access content with an accessible Student Edition textbook. The magazine-style layout contains visual primary sources, infographics, dynamic images, and more, with assessment built into the narrative. Bring the **print Student Edition** to life with read aloud audio and point-of-use lesson summaries on the **Realize Reader.**
	Flipped Lesson Videos	Flip your classroom with lesson videos that provide students with a preview or review of content from a master teacher. Available on the **Realize Digital Course**.
	Digital Interactives	Meet all types of learners with digital interactives, such as 3-D models, timelines, maps, and more. Each interactive concludes with a formative assessment. Access on your phone through the **BouncePages** app or in the **Realize Digital Course**.
	Hip-Hop History	Bring *Hamilton* into your lessons with hip-hop history songs for key topics. Download the MP4 song and access the lyrics from the **Realize Digital Course**.
Civic Engagement	Connections to Today: Take Action	Study the ways the past informs the present and encourage your students to take action for the future with Take Action assignments at the end of each topic in the **Student Edition**.
	Listenwise® Current Events	Easily add current events to your classroom with Listenwise podcasts from NPR. New podcasts are added daily and help with student listening comprehension. Find them on the **Realize Digital Course**.
	Landmark Supreme Court Cases	Study the decisions that shaped our country with landmark Supreme Court case minilessons on the **Realize Digital Course**.
	21st Century Skill Tutorials	Assign students a peer-to-peer modeling video, reference guide, and assessment.
	Election News and Updates	Add up-to-date election content, key issues in the country, candidate information, and more to your classroom with Election Resources on the **Realize Digital Course**. *Available for US History only.*
Culturally Responsive Education & Social Emotional Learning	Project Imagine Digital Immersives	Experience history from a new perspective with **Project Imagine** digital immersives built on a diverse collection of primary sources for key content areas in the **Realize Digital Course**.
	Comparing Viewpoints Primary Sources	See history from multiple perspectives with Comparing Viewpoints primary sources. Find them in the **Student Edition** and **Realize Reader**.
	Primary Source Libraries	Learn history through the eyes of people who lived it with a diverse and curated collection of primary sources. Find primary sources for your state in the **Teacher's Edition**. Find interactive sources for differentiation on the **Realize Digital Course**. See primary sources from **Project Imagine** immersives in the Primary Source Library.
	Primary Source and Reading Guide Workbook	Help students understand content with close-reading support in this **consumable workbook**, then test their knowledge with a document-based writing assessment that includes 4-5 primary sources for each topic. Also available on the **Realize Digital Course**.
Differentiation & Teacher Support	Lesson Summaries	Help struggling readers access content with Lesson Summaries at two different reading levels. Find the downloadable lesson summary and audio in the **Realize Digital Course** or embedded within the **Realize Reader** at point of use.
	Spanish Lesson Summaries	Provide ESL support for your bilingual students with Spanish Lesson Summaries, available in two different reading levels on the **Realize Digital Course**.
	Lesson Quiz	Assess student learning with remediated lesson quizzes on the **Realize Digital Course**.
	Topic Study Guide & Visual Review	Prepare all students for assessment with a topic study guide and visual review at the end of each topic in the **Student Edition** and **Realize Reader**.
	Topic Assessment with Document-Based Question	Test students' knowledge of content and build key social studies skills with primary sources document-based questions at the end of each topic in the **Student Edition** and **Realize Reader**.
	Leveled Topic Assessment	Assess students at their levels with three topic tests –below-level, on-level, and above-level. Assign tests to students via TestNav™ on the **Realize Digital Course**.
	Topic & Lesson Organizer and Pacing Guide	Use the **Teacher's Edition** to easily organize and plan your classes with topic and lesson organizers and pacing guides.
	Editable Lesson Presentations	Support your classroom with editable PowerPoint® presentations for each lesson, available on the **Realize Digital Course**.
	Point-of-Use Teaching Suggestions	Prepare for your class with point-of-use teaching suggestions in the **Teacher's Edition**, including: ESL support, differentiation tips, vocabulary building exercises, social-emotional learning integration, answer keys, and more!
	Professional Development	Find professional development support on the **Realize Digital Course** to support inquiry-based learning, active classrooms, social-emotional learning, and more.
	Social Studies Core Concepts	Integrate core concepts such as geography, culture, government, civics, and more into your classroom with mini lessons on the **Realize Digital Course**.
	Social Studies Resource Center	Find additional resources such as biographies, rubrics, and graphic organizers in our resource center on the **Realize Digital Course**.

Please note that many features in this chart help support multiple classroom issues!
