

Evidence Explained

ESSA emphasizes “evidence-based” approaches that have demonstrated statistically significant positive effects on student outcomes. ESSA identifies four levels of evidence: Level 1 Strong, Level 2 Moderate, Level 3 Promising, and Level 4 Evidence that demonstrates a rationale. The levels are defined by the research study design.

Miller & Levine Experience Biology meets ESSA’s Level 4 evidence criteria.

Demonstrates a Rationale Evidence Criteria	Alignment to requirements	Detail
A well-defined logic model or study that indicates how a program is likely to improve student outcomes.	Meets	Find the <i>Miller & Levine Experience Biology</i> Logic Model here .

Experience MILLER & LEVINE Biology®

Miller & Levine Experience Biology was designed to transform curiosity and investigation into deep understanding. Through hands-on investigations and interactive digital experiences, *Miller & Levine Experience Biology* puts students in the role of scientists. It combines clear pacing support, hands-on labs from Flinn Scientific, flexible digital and print resources, and real-world phenomena to engage every student. It’s teacher-ready, student-centered, built for today’s classrooms and is fully aligned to the Next Generation Science Standards and state standards.
